Cost Recovery & Non-Regulatory Charges for 2011/2012

PLANNING

All Building/Planning/Plumbing Changes are effective as at 12/07/2011

1. Fees for applications not covered in this schedule will be determined by Council at the time of application.
 2. Fees may be negotiable under special circumstances. Council may waive or partially waive a development application fee where:-
 - * Strict application of the scheduled fee is obviously unreasonable for the type of application being received, and/or
 - * If, because of the nature of the application there will be lower costs incurred by Council in processing the subject application
- Requests for fee reduction must be made in writing and lodged with the application and will be determined when the application is decided at which time the agreed reduction will be refunded.
3. If a review of a technical report is required to be outsourced by Council, the cost of that review is to be paid by the applicant.
 4. Fees for a combined application are to be the sum of the fees that would have been required in the event of a separate development application being lodged. Combined Applications involve more than one type of development and/or multiple land use.
 5. Any application not accompanied by the required application fees can not be processed under SPA because such an application will not be a 'properly made application' as stipulated under this Act. Delays may occur until the appropriate fee is submitted to Council. Applicants are urged to discuss fees with Council staff before lodging any Development Application.
 6. The Planning fees nominated for MCU's, ROL's and Op Works are inclusive of the lodgement fee, assessment fee and inspection fees. RoL fees are inclusive of plan sealing/endorsement fee.
 7. Inspections of completed projects are mandatory. If any inspection of such is failed and a reinspection is required the fee will be \$110.00 for sites within 15km of the post office. For distances greater than 15km - fee to be advised.
 8. 48 hours notice is required before any inspection.
 9. Preliminary Approvals are charged at 90% of the Development Permit cost for that the same Development
 10. Council will provide prelodgment advice up to the value of \$300 (consultant costs + staff time). This will be calculated by the hours spent assessing the enquiry and providing advice to the applicant.

Cost Recovery & Non-Regulatory Charges for 2011/2012

OPERATIONAL WORKS

- Fees for applications not covered in this schedule will be determined by Council at the time of application.
- Fees are negotiable under special circumstances. Council may waive or partially waive a development application fee where:-
 - * Strict application of the scheduled fee is obviously unreasonable for the type of application being received, and/or
 - * If, because of the nature of the application there will be lower costs incurred by Council in processing the subject application
 Requests for fee reduction must be made in writing and lodged with the application and will be determined when the application is decided at which time the agreed reduction will be refunded.
- If a review of a technical report is required to be outsourced by Council, the cost of that review is to be paid by the applicant.
- Fees for a combined application are to be the sum of those fees that would have been required in the event of a separate development application being lodged. Combined Applications involve more than one type of development and/or multiple land use.
- Any application not accompanied by the required application fees can not be processed under SPA because such an application will not be a 'properly made application' as stipulated under this Act. Delays may occur until the appropriate fee is submitted to Council. Applicants are urged to discuss fees with Council staff before lodging any Development Application.
- Inspection of aspects or stages of the project as nominated in the approval/permit conditions are mandatory. If any inspection of such is failed and a reinspection is required the fee will be \$130.00 for sites within 15km of the nearest Post Office. For distances greater than 15km - fee to be advised.
- 48 hours notice is required before any inspection.

Cost Recovery & Non-Regulatory Charges for 2011/2012

BUILDING - Notes regarding applications

All Building/Planning/Plumbing Changes are effective as at 12/7/2011

1. Building Application fee is made up from the total of the following:- **Lodgement Fee + Assessment + Inspections = TOTAL**
The lodgement fee covers Councils Administration and Archive functions.
2. For Projects 'out of the ordinary' or not covered in this fee schedule – fees to be advised by Council.
3. Fees maybe negotiable under special circumstances.
4. All documentation must be submitted with an Application. Consult with Council Development Services staff regarding the information/documentation required.
5. Plumbing / Drainage, Planning Fees and other Authority Fees are separate and additional.
6. The floor area referred to for the calculation of fee is on the gross area of all floors comprised within the building measured over the enclosing walls thereof plus the area of any verandah, roofed terrace or patio, garage or carport comprised within or attached to the building:
7. If a review of a technical report is required to be outsourced by Council, the cost of that assessment is to be paid by the applicant. The assessment of the Energy Efficiency component of an application may also be outsourced by Council. To avoid the cost of such applicants are encouraged to submit a Form 15 (Compliance Certification by a Competent Person).
8. **INSPECTIONS**
 - (a) Inspections are mandatory. **Note: the inspection fees quoted are for inspections within 10km of the nearest major towns post office. For inspections greater than 10km from the post office refer to table herein.**
 - (b) Class 1a & 1b (dwelling)
 - » three (3) inspections are required for dwelling on stumps (Building inspections only)
 - » four (4) inspections are required for dwelling – slab on ground. However, if footing and slab are poured as one – only three (3) inspections are required.
 - (c) Class 2 to 9 buildings – normally three (3) inspections (Building inspections only) Exact number of inspections to be confirmed and applicant advised.
 - (d) The number of inspections required may vary from those stated above depending on the complexity of the project. If additional inspections are required the fee is payable before issue of the Development Permit.
 - (e) Where an application is lodged with, and a Development Permit issued by the Council, the carrying out of the required inspections, as nominated in the decision notice and schedules is to be done by Council's Building Certifiers unless they agree to these inspections being done by others (Competent Person).
 - (f) If slab and frame inspections are done by others, Councils fee for accepting each certification and administration thereof = **\$25.00**.
Each certification is to be received by Council within 5 business days of inspection date.
 - (g) The footing and final building inspection must be done by Council's Building Certifiers if the application has been lodged with and approved by Council.
 - (h) If any inspection is failed a re-inspection is required. Refer inspection fees.
 - (i) **48 hours notice is required** before any inspection day/time, this includes any changes to a previously booked time. Should Council not be able to carry out this inspection, we will arrange for a "Competent Person" to carry out the inspection. Any additional costs in doing such may be charged to the applicant.
 - (j) Where an application involves two (2) or more buildings – eg. additions to dwelling and detached shed a lodgement fee is required for each structure.
 - (k) Council reserves the right to refuse to undertake inspections for a third party.
9. **ABBREVIATIONS**
cf = commercial fee with gst being recoverable except for the lodgement fee component which is GST exempt
rf = regulatory fee being gst exempt
TBA = to be advised
POA = price on application
10. Note - unless stated otherwise, the total fee or bond listed against an individual Item/Description is for one application, permit etc only
11. If a Removal house has been approved by a Private Certifier, any request for release of part or whole of the Bond (refer to 8 items listed under Building Bonds - Removal House) must be accompanied by verification of completion for each of those items. Should the verification of completion not be satisfactory to Council or not be provided, Council may need to undertake an inspection of the work to substantiate the extent of work claimed in the Bond release request.
Any inspection done by Council will be charged out at the rates listed therein.
