Maintenance	Council resourced funding utilised to undertake various works on Council roads, ranging from grading to pothole patching, installing guideposts and improving signage.
Gravel Formation	Improving the surface material of a gravel road.
Roads to Recovery	The Roads to Recovery Programme is Federal Government based funding which facilitates the construction or maintenance of Roads and Bridges within the North Burnett region.
TIDs	Transport Infrastructure Development Scheme (TIDs) is State Government funding designed for the development or upgrade of roads and transport related infrastructure.
Main Roads	Undertaking contractual works on behalf of the Department of Transport and Main Roads on the State Road Network.
Flood Resilience	The improvement of a flood prone asset to minimise damage and delays in access following a flood event.
Concrete Floodway	The improvement or replacement of a concrete floodway.
Pavement Rehab	Rehabilitation of a sealed pavement to remove defects and improve the life of the asset plus its safety and driveability.
Private Works	Contractual works undertaken for a private entity.
Capital	A project that helps maintain or improves Council's asset
